100% clean energy E.ON and the R.E.C.S. certification regarding power consumption

Dear Customer,

We are pleased to confirm you that your power contract specification includes the “100% clean energy E.ON” feature, the R.E.C.S. (Renewable Energy Certificate System) International Certification system and the free use of the E.ON guarantee eco-label on your products and brochures, showing your efforts to protect the environment. The eco-label guarantee available to you and to all MPE Energia customers in 2009, prior to the full acquisition of the company by the E.ON Group, is the “ECO Emmepie 100% pure energy”, with the same features and effects. This means that 100% of your power consumption has been certificated by R.E.C.S. System as coming from renewable energy production sites.

Best regards

E.ON Energia S.p.A.
